

SYED ROHAN ALI SHAH

Full Stack Software Engineer | MERN Stack | Django REST Framework | React | Node.js

Lahore, Pakistan | +92 319 7136657 | rohanali027@gmail.com | linkedin.com/in/rohan-shah-5402b3206 | github.com/Exclipze

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 1.5+ years of experience developing scalable web applications, RESTful APIs, automation systems, and real-time applications using the MERN stack and Django. Experienced in designing responsive frontends with React, building secure backend services with Node.js, Express.js, Django REST Framework, and working with MongoDB, MySQL, and SQLite databases. Strong background in backend engineering, API architecture, authentication systems, automation scripting, and cloud deployment. Passionate about writing clean, maintainable code, solving complex technical problems, and continuously learning modern software technologies.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Responsive Web Design, React Router, Framer Motion

Backend: Node.js, Express.js, Django, Django REST Framework, Flask, RESTful API, JWT, RBAC, Socket.io

Databases: MongoDB, MySQL, SQLite, Mongoose ODM, Django ORM, Aggregation Pipelines, Query Optimization

Tools: Git, GitHub, Postman, VS Code, Netlify, Linux, npm, Vite, Celery (Basic), Redis (Basic)

Concepts: OOP, Data Structures, REST Architecture, MVC/MVT, CRUD, Auth & Authorization, Agile, Clean Code

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer

KOT Enterprises | Jan 2026 - Present | Lahore, Pakistan

- Develop and maintain full-stack web applications using React.js, Node.js, Express.js, Django, and MongoDB.
- Design secure REST APIs with authentication, authorization, validation, pagination, filtering, and search.
- Build reusable frontend components using React, Tailwind CSS, and Bootstrap for production-ready UIs.
- Develop backend services and business logic using Express.js and Django REST Framework.
- Optimize MongoDB queries and improve application performance for scalable solutions.
- Collaborate with designers and developers to deliver responsive, production-ready applications.
- Debug production issues and maintain existing systems using Git-based workflows.

Junior Web Developer Intern

KOT Enterprises | Jan 2025 - Dec 2025 | Lahore, Pakistan

- Assisted in developing MERN stack applications under senior developer supervision.
- Built responsive user interfaces using React and Bootstrap with pixel-perfect implementation.
- Integrated frontend applications with Express.js APIs and handled state management.
- Designed MongoDB schemas and implemented full CRUD functionality.
- Fixed UI bugs, tested application features, and maintained technical documentation.

SELECTED PROJECTS

Task Management REST API

Python | Django | Django REST Framework | JWT | SQLite

- Developed a complete REST API for project and task management with JWT auth and RBAC.
- Built CRUD APIs for Projects, Tasks, Accounts, and Audit Logs with filtering, pagination, and validation.
- Designed serializers, viewsets, models, and optimized database relationships using Django ORM.

E-Commerce Platform

React.js | Node.js | Express.js | MongoDB | Tailwind CSS

- Built a complete e-commerce application with secure authentication, product management, and shopping cart.
- Developed order management system and admin dashboard with responsive UI using React and Tailwind CSS.

Hotel Management System

Next.js | React | Tailwind CSS | Node.js | MongoDB

- Developed hotel booking software with separate admin and customer dashboards.
- Implemented room management, booking workflow, authentication, and REST API integration.

Real-Time Task Management Dashboard

React | Node.js | Express.js | Socket.io | MongoDB

- Built a collaborative Kanban-style task management system with real-time WebSocket synchronization.
- Developed activity logging, role-based task assignments, and multi-role dashboard support.

Inventory & Sales Management System

Python | Flask | MySQL | Bootstrap

- Developed inventory and sales tracking software with analytics dashboards and reporting modules.
- Implemented CRUD operations with MySQL and generated inventory/sales reports.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

University of the Punjab | 2024 - Present

Relevant Coursework: OOP, Data Structures, Database Systems, Software Engineering, Web Technologies, Computer Networks, Information Security, AI, Operating Systems

Intermediate in Computer Science (ICS)

KIPS College, Lahore | Completed 2024

CERTIFICATIONS & ACHIEVEMENTS

- NAVTTC Full Stack Web Development Certification (2025)
- Developed multiple production web applications for clients using MERN Stack and Django.
- Designed and implemented secure REST APIs with authentication and authorization systems.
- Built scalable automation systems and real-time applications using WebSockets and Node.js.
- Experienced in deploying and maintaining cloud-hosted applications and automation services.

LANGUAGES

English (Professional Working Proficiency) | **Urdu** (Native)
