Profile:

Aspiring Full-Stack Web Developer with a strong interest in backend development. Experienced with JavaScript, Node.js, Express.js, MongoDB, and EJS, and eager to contribute to real-world software projects while expanding my technical skills.

Projects :

BagNest: Role-Based E-Commerce (Admin Product Management + Shopping Cart):

Technologies: HTML , EJS , TailwindCSS , Node.js , Express.js , Database , MongoDB ,Mongoose, Authentication & Security , JWT , Cookies , bcrypt

BagNest is an Express.js + EJS e-commerce web app using MongoDB/Mongoose. It provides JWT + cookie-based authentication (bcrypt password hashing), role-based authorization for admins, product creation with image upload (multer), and a MongoDB-backed shopping cart

GitHub: <https://github.com/Ahtsham-Saddique/BagNest-by-Ahtsham>

Social Profile Web App

Technologies: Express + EJS, JWT Auth, MongoDB

Project Description:

Built a social profile web application with Node.js/Express, EJS views, and MongoDB using Mongoose. Implemented secure authentication using bcrypt for password hashing and JWT-based sessions stored in cookies. Added user registration/login/logout, profile picture upload/update using multer (disk storage with random filenames), and a posts feed on the user profile page. Users can create text posts, like/unlike posts via MongoDB references, and edit only their own posts using ownership checks enforced in the routes. Styled the UI with Tailwind CSS for a clean, responsive profile experience.

Project name: User CRUD App with MongoDB & Express

Technologies: Node.js, Express.js, MongoDB, Mongoose, EJS, Tailwind CSS, HTML/CSS

Project Description:

Developed a CRUD web application for managing user records (create, read, update, delete) with a Node.js/Express backend, EJS server-side rendering, and MongoDB database using Mongoose. Implemented a responsive UI using Tailwind CSS.

GitHub: https://github.com/Ahtsham-Saddique/Crud_App_using_mongo_db

Frontend Portfolio Website

Technologies: (HTML, CSS, JavaScript, Bootstrap)

Project Description : Frontend portfolio website showcasing projects with a responsive, user-friendly UI and interactive sections. Built using HTML5, CSS3, JavaScript, and Bootstrap for layout and styling. Features clean navigation, project cards with live/demo links, accessibility-focused structure, and consistent performance-oriented design.

ChatBox Web Application

Technologies: Django, HTML, CSS, JavaScript

- Developed a real-time chat interface with dynamic messaging
- Implemented backend routing, template rendering, and responsive UI
- Utilized Git/GitHub for version control and scalable project structure

GitHub: <https://github.com/Ahtsham-Saddique/ChatBox>

Skills :

Technical Skills:

<u>- Programming Languages:</u>	JavaScript, Python, C++, Java
<u>-Frontend:</u>	HTML, CSS, Tailwind CSS, EJS
<u>-Backend:</u>	Node.js, Express.js
<u>- Databases:</u>	MongoDB, Mongoose, SQL
<u>-Authentication & Security:</u>	JWT, bcrypt, Role-Based Access Control (RBAC)
<u>- Tools & Others:</u>	Git, GitHub, Postman, VS Code, npm,Multer, dotenv

Core Competencies:

- Backend Development (Node.js & Express.js)
- Authentication & Role-Based Authorization (JWT, bcrypt, RBAC)
- MongoDB Database Design & Mongoose Relationships
- MVC Architecture & Middleware Development
- Object-Oriented Programming (OOP)
- Data Structure & Algorithm
- Problem Solving & Debugging
- Version Control (Git & GitHub)

Education

Bachelor of Computer Science(BSCS)

National Skills University Islamabad (NSU)

07/2023 – present
